email: xerox@cadgraphicsinc.com
web: www.cadgraphicsinc.com

Drawback's of Traditional Faxing...

- ☐ Lack of compliance (PCI-DSS, HIPAA, S-Ox, US Courts)
 - ☐ Inability to receive faxes in a secure digital format (i.e. - email attachments)
 - ☐ Confidential files sitting at the fax machine
 - ☐ No audit trail
- ☐ Lost Productivity
 - ☐ Inability to receive faxes outside of the office
 - ☐ Must manually archival hard copies
- ☐ Expensive
 - ☐ No cost transparency
 - ☐ Cost of phone line
 - ☐ Cost of analog fax board(s)
 - ☐ Cost per minute – local and long distance charges
- ☐ Inability to move seamlessly to a VOIP environment
 - ☐ Converters are required

Advantages of Xerox Online Faxing...

- ☐ Regulation Compliance
 - ☐ Digital audit trail of inbound and outbound fax traffic
 - ☐ All fax transmissions digitally archived via email
 - ☐ Confidentiality of fax documents
 - ☐ No more lost faxes
 - ☐ Audit Trail
- ☐ Higher Productivity
 - ☐ Integration with email for inbound and outbound faxing
 - ☐ Integration with your Xerox EIP MFP for outbound faxing
 - ☐ Keep your existing fax numbers
 - ☐ Voice over IP ready
 - ☐ iXware is focused on Xerox
- ☐ Less Expensive
 - ☐ Next generation, IP based fax solution
 - ☐ No analog fax board or telephone line required!

Outbound Faxes – How Does It Work?

Customer creates a fax at the MFP or using a standard email client.

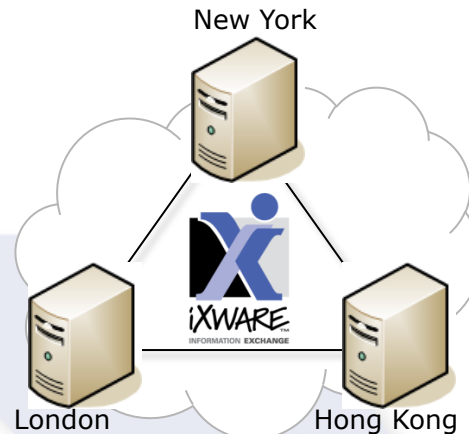

MFP

E-MAIL

Fax is sent via iXware's hosted servers.

No analog fax board required!

Fax is delivered to recipient fax machine.

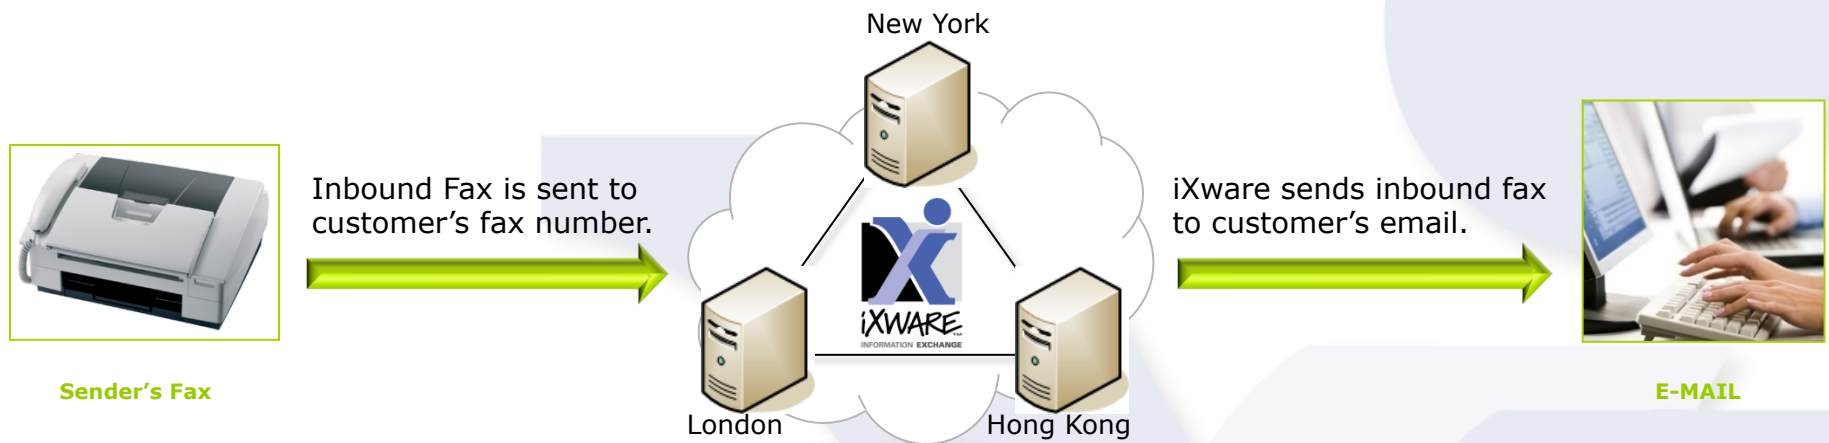

Recipient

A copy of the original fax, plus the delivery report is sent to customer's email.

Inbound Faxes – How Does It Work?

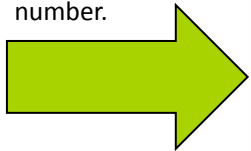

Fax Directly From the Copier

With our simple to use EIP interface customers can send paper faxes directly from their Xerox MFP in as little as two steps.

Step 1:
Enter the
recipient fax
number.
